The Genoa Courier says: A serious ru away of H. Soringmeyer's 12-horse team occurred in Carson Wednesday evening. They had unhitched in Peterson's yard, and it is said one of the traces of wheeler accidentally caught after being unhooked, and when the horse stepped forward he became frightened and the whole team started, breaking the wagon tongue. Nine of the horses ran out of the yard, but three were caught, while the other six ran toward home and were finally stopped near the Averill place on Clear Creek. One fine horse dropped dead, and several sets of harness were torn to pieces. It is said that no blame is attached to anyone, the occurrence being accidental.

"We find that he made no effort to get the evidence of the principal witness in the case. We therefore condemn the action of the District Attorney in moving for a dismissal of the indictment against A. H. Davis on the grounds set forth to the Court by him."

A few more exonorations of this kind will wind up Mr. Summerfield and his backers.

There is no Secret

About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't is is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefor we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely it your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit.
